◆ ABOUT VECTOR OPS

Vector Ops is a certified Service-Disabled Veteran-Owned Small Business delivering creative, communications, and digital design support to federal contractors and agencies. Founded and led by a retired Army Colonel with 26 years of contracting experience, our team brings enterprise-grade creative execution with the compliance discipline federal work demands. Section 508 and WCAG accessibility are built into every deliverable from day one, not added at the end. We operate as a quiet, reliable partner: on scope, on time, and ready to integrate into your program with minimal friction.

◆ CORE COMPETENCIES

Strategic branding and visual identity systems	Section 508 / WCAG-compliant web design and development
CMS architecture and federal-ready front-end development	Public affairs and communications campaign support
Motion, animation, and training media production	Stakeholder collateral, reports, and print production
Marketing strategy and audience messaging frameworks	Accessible digital systems, no retrofit required

◆ DIFFERENTIATORS

- Led by a retired U.S. Army Colonel with 26 years managing federal contracts and vendor performance
- 15+ years enterprise creative and digital systems experience across Fortune 500 clients in energy, finance, cybersecurity, and defense-adjacent sectors
- 508 and WCAG compliance delivered as standard practice, not a line-item add-on
- Structured for subcontracting: SOP-ready onboarding, clear deliverable frameworks, no hand-holding required
- Three-principal team means decision-makers are always reachable

◆ LEADERSHIP

**BRIAN LUKEY**

**CHIEF EXECUTIVE OFFICER**  
Retired U.S. Army Colonel. 26 years managing multimillion-dollar contracts, vendor oversight, and cross-agency coordination. Service-connected disabled veteran.

**JOSH TITUS**

**CHIEF STRATEGY OFFICER**  
15+ years in brand and communications strategy for enterprise clients across renewable energy, AI, financial services, and cybersecurity.

**TYLER LUKEY**

**CHIEF TECHNOLOGY OFFICER**  
15+ years in digital systems, CMS architecture, accessibility compliance, and federal-ready web delivery.
